

KLINGER **SENTRY SR**

Reverse Integrity Gaskets

Reverse Integrity Gaskets
for clamped connections

KLINGER SENTRY SR

Reverse Integrity Gaskets

A safe, high integrity seal that provides operators with the ability to test the integrity of a clamped connection. The Sentry SR helps reduce the requirement of large volumes of Nitrogen or other test medias and reduce down time significantly, whilst maximising plant up time, efficiency and safety when carrying out integrity and pressure tests.

APPLICATIONS

Specifically designed for Hub / Clamp Connections to provide reassurance that the seal ring has been installed correctly within the hub unit. Based on original seal ring dimensions the Sentry SR has been rated upto 5000psi by global operators.

ASSOCIATED EQUIPMENT & SERVICES

Sentry Test Plug

Sentry Test Pump
